

J-260-9HD-N

JENCODERTM
THE PERFECT CODER

All dimensions are in mm with a tolerance of ± 0.1 unless otherwise specified

- Extremely robust construction having heavy duty bearings on opposite face of housing allowing use of rigid coupling
- Optional terminal box for ease of connection
- Optional driver circuit for long distance cable (100m)
- Optional unbreakable to withstand heavy shocks

Channels	R = ABZ / Q = AB / A = A
Output	HV = Driver (10mA Source/Sink) without inverted channels HVLD = Driver (10mA Source/Sink) with inverted channels PP = Driver (50mA Source/Sink) without inverted channels PPLD/HTL = Driver (50mA Source/Sink) with inverted channels OC = Open Collector without inverted channels TTL/RS422 = Driver (10mA Source/Sink) with inverted channels at 5vdc
PPR	see ppr option below
Voltage	V1 = 5 VDC / V2 = 10-28 VDC / V3 = 5-28 VDC
Protection	2 = IP65
Temperature	S = 0-70°C
Termination	T = Terminal Box / C = Connector
CE Certified	N = Standard / CE = CE Certified

Ordering Example – J-260-9HD-N-R-HVLD-1000-V2-2-S-T
